

High-impact nails at Rag & Bone

1 Pump Up Polish

Modernize your manicure with a new neon nail lacquer. (Think highlighter hues.) Try Illamasqua Nail Varnish in Whack (left, \$14).

2 Fake Great Skin

The quickest way to get perfect skin is to apply foundation with the Temptu Airbrush Makeup System (\$30–\$225).

3 Shape Your Brows

A good brow shaping can rejuvenate your face. Go to a pro to find the arch and thickness that suits you best. Benefit has 150 terrific brow bars across the country. Check out benefitcosmetics.com for one near you.

4 Try a (Temporary) Face-Lift

For a traditional lift, you have to shell out thousands of dollars, have surgery, and spend weeks in hiding. But for \$49.95 and three minutes of your time, Serious Skin Care Firma-Face XR will smooth lines, shrink pores, and tighten skin. This mask works!

5 Paint Your Pout

Break free of your rosy-plum gloss (you know, the one you have from every brand) and try a pretty shimmer lipstick to brighten your face.

Revlon ColorBurst Lipstick in True Red, Fuchsia, and Baby Pink (\$8.99 each)

NEW YEAR, NEW YOU

Stuck in a rut? REVAMP your beauty routine and UPDATE YOUR LOOK instantly with these great buys.

6 Tailor Your Own Scent

A custom fragrance is a modern, affordable luxury that shows off your individual style. Many beauty boutiques now offer this service, but we adore the eau de parfum spray (\$75) at Memoire Liquide Bespoke Perfumery in New York and Los Angeles.

7 Boost Your Smile

Who doesn't feel more confident when her teeth are whiter? A bright smile also makes you look younger. See your dentist for laser whitening, or try Crest 3D White Vivid Toothpaste (\$4.25) and Supersmile Series II LS45° Advanced Sonic Pulse Toothbrush (\$159). We saw rapid results.

8 Get Sexy, Shiny Hair

Wish you could have perfect strands right out of the shower? Ask your salon about the Brazilian Blowout, a new keratin treatment that smooths, adds softness, and eliminates frizz for months (\$300–\$500).

Jennifer Lopez has the hair we want

9 Go Bronze

Got that postholiday I'm-so-bloated-and-pasty feeling? Get thee to a spray tanner. A fake tan can make you look and feel thinner and healthier. We're partial to St. Tropez products and treatments, which don't have that hideous old-sock scent.

10 Drop Two Sizes...Fast

You know you need to stick to a reasonable diet and start some kind of exercise plan. To make the most of your results, speak to a doctor about Zerona, a new painless laser body-contouring procedure that can help you lose three or more inches after six treatments. To see amazing before and after photos, go to HarpersBazaar.com/zerona.
